### Projects

#### Nordstrom - Clone,

<https://github.com/Tonystark102/MasaiGroup.git> 📄

Nordstrom is an E-commerce website for clothing.

We used HTML, CSS and JavaScript to build this project.

I did the backend part of the website in which I worked on storing the customer's data in a local storage which helped in sign-in and sign-up on the page and also works on cart page or payment page.

#### AppleTV - Clone,

It is an online streaming video website.

- I have done the sign in and signup page to store the customer's all types of data and interests.
- I have also done CSS part of category page.
